

BOWOFADE OYERINDE

Senior Full-Stack Software Engineer | Technical Lead

Remote | Global | [+234 708 135 3229](tel:+2347081353229) | contact@bowofade.com

Portfolio: bowofade.com | LinkedIn: [oyerinde-bowofade](https://www.linkedin.com/in/oyerinde-bowofade) | GitHub: [oyenet1](https://github.com/oyenet1)

PROFESSIONAL SUMMARY

Innovative Senior Software Engineer with over 6 years of experience designing and deploying scalable, high-performance distributed systems. Proven track record in architectural leadership, having led the end-to-end lifecycle of multi-tenant SaaS platforms and hotel booking engines. Expert in PHP/Laravel, Node.js, Bun (Hono), and Rust (Axum), with specialized skills in cloud infrastructure (AWS, GCP) and container orchestration via Docker Swarm. Focused on optimizing system performance—achieving up to 3x speed improvements—and mentoring technical teams to deliver enterprise-grade solutions.

CORE COMPETENCIES

- Architecture: Distributed Systems, Multi-tenant SaaS, RESTful API Design, Microservices, System Scaling.
- Cloud & DevOps: Docker Swarm, VPS Management, AWS (SES, EC2, S3, RDS), GCP, CI/CD Pipelines, Infrastructure as Code, Git.
- Backend: PHP (Laravel), Node.js (Honojs), Go/Golang, Rust, MySQL, PostgreSQL, Redis, Database Optimization.
- Frontend: JavaScript (ES6+), TypeScript, Vue.js, Nuxt.js, TailwindCSS, Alpine.js, Livewire, Filament.
- Leadership: Team Mentoring, Technical Roadmapping, Stakeholder Management, Agile Methodologies.

PROFESSIONAL EXPERIENCE

Software Developer Consultant | 9jahotel Limited

Dec 2024 – Dec 2025 | Abuja, Nigeria

- Architectural Ownership: Spearheaded end-to-end architecture and deployment of the RoomStatus & 9jahotel ecosystem, a complex hotel booking and property management platform.
- Infrastructure Management: Managed high-availability production environments on VPS and AWS/GCP to ensure 99.9% uptime; integrated AWS SES for reliable transactional guest communications.
- API Development: Built and optimized RESTful APIs for seamless integration with cross-platform mobile applications using TypeScript and Hono.
- Technical Leadership: Acted as the primary technical authority, providing staff onboarding and training to ensure 100% adoption of the new system.

Lead Software Engineer | Meeras Software Solution

Jan 2023 – Feb 2025 | Abuja, Nigeria

- Team Leadership: Led a development team of 5+, aligning technical roadmaps with business goals and ensuring timely delivery of high-stakes projects.

- SaaS Development: Architected and launched a multi-tenant School Management System, streamlining administrative workflows and data management for multiple institutions using Laravel and Vue.js.
- Mentorship: Fostered a culture of continuous learning by mentoring junior developers in clean code practices and system design patterns.

Laravel Developer | Westpoint Consult Ltd

May 2023 – July 2024 | Abuja, Nigeria

- Performance Optimization: Refactored legacy database queries, resulting in a 3x improvement in application response times.
- DevOps Integration: Introduced Docker Swarm for container orchestration, significantly reducing environment-related bugs and enhancing deployment velocity across VPS clusters.

SELECTED TECHNICAL PROJECTS

- Techinver Solutions (techinversolutions.com): Managed and deployed specialized Ecommerce solutions focusing on enterprise digital transformation and scalable web architectures.
- MyRoomStatus PMS (myroomstatus.com): A cloud-based Hotel Property Management System featuring real-time analytics, automated night audits, and integrated POS systems. Built using a multi-tenant architecture on cloud infrastructure for global scaling.
- 9jahotel Platform (9jahotel.com): A real-time hotel booking aggregator. Implemented event-driven updates to synchronize room availability across disparate platforms.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

University of Abuja | 2018 – 2022

- Honors: Second Class Upper Division.
- Activities: Member of Google Developer Group; Academic Mentor for Computer Science students.

CERTIFICATIONS

- Data Structures and Algorithms – FreeCodeCamp (800+ hours of intensive coding).
- Technical Proficiency – JavaScript, TypeScript, PHP, Rust, SQL, DevOps, System Design and Architecture.
